Subject: FW: Club vote

Good afternoon ladies, we had our usual business meeting at the Elks yesterday.

There was a Board recommendation presented to increase our member club dues from \$106.00 to \$130.00. (Do not faint) Our expenses to run the club, fees and assessments we are required to pay are not being met by the \$106.00 dues and have been subsidized by internal fundraising. Internal fundraising is done for the purpose of having monies for delegates who go to conferences (District, Regional, Federation) for their lodging, meals, & transportation paid to a specified amount that is listed in our by-laws. The burden on the internal fundraising committee has been heavy the past couple of years. If Internal Fundraising does not raise enough monies needed for delegates expenses then the club has the option to use 'service money' however, **we cannot use service money to run the club.**

MOTION: Raise the dues to \$130 per member to cover clubs initial expenses. Internal fundraising will be used to offset any unforeseen expenses as well as expenses for delegates, such as: room, transportation and food.

I am sure you are aware to increase the dues we need a vote from 2/3 of the club members.

There were 15 votes in favor of this increase in dues.

Please email me with a yes or a no vote so finance can get the budget for next year done.
